Highly motivated and results-driven Mobile & Web App Developer with hands-on experience in **MERN Stack, React Native, and Next.js**. Proven ability to develop and maintain robust mobile and web applications, collaborate with cross-functional teams, and contribute to digital transformation. With strong experience in leveraging **AI tools such as Cursor, GitHub Copilot, and Cloud-based AI solutions**, I enhance productivity, accelerate development, and deliver smarter applications. Eager to leverage strong problem-solving skills and a passion for cutting-edge technologies to build impactful software solutions.

Experience

Frontend Developer

Techbeel , Oman (Remote)

May 2026 – Present

- Working as a Frontend Developer, building and maintaining both **web** and **mobile** applications with a strong focus on performance, scalability, and user experience.
- Developing pixel-perfect, responsive user interfaces from Figma designs, ensuring consistency across different devices and screen sizes.
- Integrating application endpoints and collaborating closely with backend developers to deliver seamless and reliable functionality across the platform.
- Delivering and enhancing e-commerce applications, implementing new features, resolving issues, and continuously improving the overall user experience.
- Working with **Docker, AWS, and CI/CD** pipelines to support efficient development, testing, and deployment workflows.
- Collaborating with UI/UX designers, backend developers, QA engineers, and cross-functional teams throughout the complete software development lifecycle, from requirement analysis to deployment and post-release enhancements.
- Writing clean, reusable, and maintainable code while following industry best practices, participating in code reviews, and optimizing application performance.
- Leveraging AI-powered development tools such as **Cursor, Claude, Trae, and Antigravity** to accelerate development workflows, improve code quality, automate repetitive tasks, and enhance overall productivity.

React Native Developer

Blockmob Labs , Islamabad , Pakistan

November 2025 – May 2026

- Working as a React Native Developer on blockchain and e-commerce applications, delivering scalable and high-performance mobile solutions for cross-platform environments.
- Collaborating closely with backend developers, blockchain engineers, UI/UX designers, and SQA teams to ensure seamless integration, smooth user experience, and high-quality releases.
- Actively participating in the complete development lifecycle, including requirement analysis, architecture discussions, feature implementation, testing, deployment, and post-release improvements.
- Implementing secure payment integrations, wallet connectivity, transaction flows, and API integrations while maintaining application security and data integrity.
- Writing clean, modular, and reusable code following best practices, maintaining proper documentation, and ensuring code quality through reviews and continuous feedback.

React Native & MERN Stack Developer
ALIMCOSOF (SMC-PRIVATE) LIMITED, Islamabad
February 2025 – October 2025

- Designed, developed, and optimized complex React Native mobile applications and MERN stack web platforms, ensuring high performance, scalability, and seamless user experience.
- Collaborated closely with cross-functional teams including product managers, designers, backend engineers, and SQA to translate business requirements into efficient, user-focused technical solutions.
- Contributed to digital transformation initiatives by modernizing legacy processes, improving system efficiency, and enhancing overall application usability and performance.
- Led and supported end-to-end technical implementation, from architecture planning and development to deployment, monitoring, and long-term maintenance, ensuring reliability and stability in production environments.

React & Node.js Developer
Mehdi Technologies Pvt. Ltd., Islamabad
July 2024 – February 2025

- Built and maintained dynamic, responsive, and scalable web applications using React.js and Node.js.
- Worked with multidisciplinary teams to deliver customized software solutions aligned with client goals.
- Contributed to modernization and digital enhancement projects, improving app performance and user satisfaction.
- Provided technical consulting, deployment support, and maintenance to ensure the stable and efficient operation of delivered systems.

Technical Skills

- | | | | |
|--------------|-------------------|------------|----------------------------|
| • HTML | • React Native | • Node.js | • Capacitor |
| • CSS | • React Js | • Express | • Git & GitHub |
| • JavaScript | • Next Js | • MongoDB | • Vercel & Netlify |
| • TypeScript | • Tailwind CSS | • GraphQL | • Material UI & Ant Design |
| • Python | • shadcn/ui | • Firebase | • GitHub Copilot |
| • Java | • Bootstrap | • REST API | • Cursor AI |
| • C/C++ | • Zustand & Redux | • Supabase | • Claude |
| • MySQL | • Docker | • AWS | • Trae & Antigravity |

Education

Abdul Wali Khan University Mardan, Pakistan
Bachelor of Computer Science

Graduated July 2024
