Highly motivated and results-driven Mobile & Web App Developer with hands-on experience in **MERN Stack, React Native, and Next.js**. Proven ability to develop and maintain robust mobile and web applications, collaborate with cross-functional teams, and contribute to digital transformation. With strong experience in leveraging **AI tools such as Cursor, GitHub Copilot, and Cloud-based AI solutions**, I enhance productivity, accelerate development, and deliver smarter applications. Eager to leverage strong problem-solving skills and a passion for cutting-edge technologies to build impactful software solutions.

Experience

React Native & MERN Stack Developer | ALIMCOSOFT (SMC-PRIVATE) LIMITED, ISLAMABAD

March 2025 – Present

- Developed and maintained React Native mobile applications and MERN stack web solutions, sharpening expertise in both front-end and back-end development.
- Collaborated effectively with cross-functional teams, translating client needs into well-designed and implemented software solutions.
- Contributed to key digital transformation projects, significantly optimizing client operations and improving overall user experience.
- Provided comprehensive technical consulting and support, ensuring efficient deployment and smooth operation of IT solutions.

React & Node.js Developer | Mehdi Technologies PVT LTD, ISLAMABAD

November 2024 – March 2025

- Developed and maintained dynamic web applications using React.js and Node.js.
- Partnered with diverse teams to design and implement tailored software solutions that met specific client requirements.
- Participated in digital transformation initiatives, enhancing client operations and user experience.
- Delivered technical consulting and support, ensuring the successful and efficient deployment of IT solutions.
